Software & Tools:	Microsoft Excel (Advanced: Pivot Tables, XLOOKUP, Nested IFs, Power Query), SQL, Power BI, Tableau, Google Sheets, MS PowerPoint
Documentation & Collaboration:	Business Requirements Gathering, Standard Operating Procedures (SOPs), KPI Dashboards, Stakeholder Reporting, Jira

PROFESSIONAL EXPERIENCE

Associate Analyst / Data Analyst Intern – Global Solutions Pvt Ltd Jun 2024 – Present | Chennai, India

- **Collected and audited 30,000+ monthly records** across operational and digital media feeds, maintaining 99.4% data integrity.
- **Identified critical data discrepancies and patterns** across third-party reporting feeds; escalated anomalies to resolve ingestion errors.
- **Automated weekly and monthly reporting cycles** utilizing advanced Excel (XLOOKUP, Pivot Tables, Conditional Formatting), saving 4+ hours/week.
- **Designed and maintained interactive KPI dashboards** in Power BI and Excel to track media delivery schedules and variance metrics.
- **Partnered with cross-functional project leads** to gather requirements, document Standard Operating Procedures (SOPs), and report status.

Operations & Data Trainee – Apex Technologies Jan 2024 – May 2024 | Chennai, India

- **Reviewed raw business data for consistency**, applying validation checks to eliminate duplicate entries and standardize key fields.
- **Prepared ad-hoc analytical summaries and decks** for stakeholder meetings, tracking metrics against established quality standards.
- **Maintained project issue logs and documentation**, supporting operational teams in meeting milestone deadlines.

SELECTED PROJECTS

Media Campaign Performance & Audience Trend Dashboard Excel, SQL, Power BI

- **Analyzed 45,000+ multi-channel digital ad records** (display, search, social) to evaluate engagement patterns, CTR, and CPC trends.
- **Engineered an automated reporting model** featuring dynamic slicers, trend charts, and cost-per-acquisition (CPA) calculations.
- **Delivered actionable insights** that recommended reallocating underperforming ad spend, driving a projected 16% conversion lift.

Automated Business Data Reconciliation & Quality Tool Advanced Excel & VBA

- **Constructed an automated data reconciliation model** using conditional validation rules to detect null values and format anomalies.
- **Reduced manual auditing time by 35%**, preventing calculation discrepancies across recurring monthly operational datasets.

EDUCATION

Bachelor of Technology / Bachelor of Science / BCA – University / College Name Graduation: 2024 | CGPA: 8.4/10

Relevant Coursework: Database Management Systems (DBMS), Business Statistics, Data Analysis, Software Engineering

CERTIFICATIONS

• **Microsoft Excel:** Advanced Formulas, Pivot Tables & Data Analysis | • **Google Data Analytics:** Professional Certificate | • **SQL & Business Intelligence:** Foundations
